The plot thickens

I love *The Assassinationist Business* by F. Peter Model and *When Good Assassinationists Get Together* by Tom Shales (February). It's about time a major magazine investigated the inner workings of these conspiracy theorists. Your writers did a great job.

Although I feel that all is not kosher in our Government, if one believes all the conspiracy theorists, everybody and his mother are waist-high in covert atrocities. Thanks for publishing Shales and Model's articles to make all that clear.
